Supply List

- Feathers
- Eye pins
- Head pins
- Ear Hooks
- Bell bead to cover the crimp on the feathers
- Metal cord end crimp
- Beads
- Chain
- Tools – Needle nose, round nose pliers, wire cutter, bead crimper

Directions

Arrange feathers-
Maybe use 1 long one and 3-4 small ones. Katie says that if you talk to them they are easier to work with!

Place the feathers into the crimp making sure all the quills are securely in the crimp.

Slightly squish both sides of the crimp together, then fold and squish one side, then the other side.

Here is what it looks like with the crimp in place.

Note: each earring may look slightly different.

Hold chain up to feather to determine the length. You may use one or two lengths of chain.

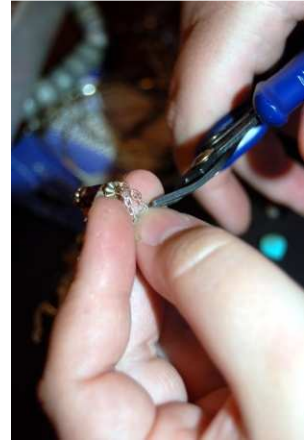

Open the head pin and hook it onto the loop in the crimp. Hang the chain from it. Twist and close the eye pin back to form the loop.

Thread beads onto a head pin and loop both ends

Open chain links and attach the beads to the chain by placing the loop on the beads on the chain.

Attach the chain to the bead loops on the top and bottom of the beads. You may want to add 2-3 beads sections this way.

Add beads and bell to the eye pin over the top of the crimp on the feather.

Attach the earring hook to the feathers.
