Supply List

- Toilet paper
- Clay paper mold (look online under that name to find them)
- Bowl of water
- Paintbrush

Directions

Cover mold with toilet paper.

Get the paper wet using water and a paint brush.

Use enough toilet paper that the ornament will be thick.

This example still needs more paper and water.

Tear the paper around the edges. Let dry or dry in the microwave. The ornament will release.

You may want to spray your ornament with a clear matte sealer.

I didn't do this with mine and they have lasted for years.

I dabbed tea water on the ornament with hearts to give it an antique look.
